

Curriculum Vitae E. W. Plummer

Personal Data

Born October 30, 1940
Astoria, Oregon
Married, two children

Educational Background

Undergraduate:

B.A. in Physics and Mathematics, *Summa Cum Laude*, 1962, Lewis and Clark College

Graduate:

Ph.D. in Physics, January 1968, Cornell University

Thesis Title: Binding of the 5d-Transition Elements on Single-Crystal Tungsten Surfaces

Thesis Advisor: Prof. T. N. Rhodin

Honors and Awards

Crown Zellerbach Fellowship, 1960–1962

Cornell Fellowship, 1962–1963

W. Nottingham Award, Physical Electronics Conference, Topical Conference of APS, 1968

Outstanding Performance Rating from U.S. Dept. of Commerce, 1968–1970

The Davisson-Germer Award, APS, 1983

Fellow of American Physical Society, 1981

Guggenheim Fellowship, 1986–1987

Humboldt Senior Scientist Award, 1987

Honorary Professor of Physics at the Institute of Physics, Chinese Academy of Sciences (October 2000)

Listed in the 1,000 Most Cited Physicists (Institute for Scientific Information) 1981–1997

One of top 100 papers published by NIST in the 20th Century

Medard W. Welch Award from the AVS, 2001

Fellow of the American Vacuum Society, 2001

Guangbiao Jianzuo Professor of Physics at Zhejiang University, Hangzhou, China, 2006

National Academy of Sciences, 2006

Distinguished Alumnus Award from Lewis and Clark College, 2007

Fellow of American Association Advancement of Science (AAAS), 2008

Chinese Academy of Sciences visiting Professorship for Senior International Scientists, 2010.

Elected to American Academy of Arts and Sciences, 2014

Professional Experience

September 1967–June 1970

National Research Council Postdoctoral Fellow at National Bureau of Standards

June 1970–July 1973

Assistant Section Chief for Surface Physics in the Far Ultraviolet Section at NBS

July 1973–July 1977

Associate Professor of Physics, University of Pennsylvania

July 1977–1988

Professor of Physics, University of Pennsylvania

July 1988–December 1992	William Smith Professor of Physics, University of Pennsylvania
November 1990–December 1992	Director of the Laboratory for Research on Structure of Matter
March 1992	Visiting Distinguished Scientist at ORNL
December 1993–2009	Distinguished Professor of Physics, University of Tennessee Distinguished Scientist, ORNL
March 2001–2006	Director of the Tennessee Advanced Materials Laboratory
2006–2008	Director of the Joint Institute for Advanced Materials
2009--	Special Assistant to the Vice Chancellor of Research and Professor of Physics and Astronomy, Louisiana State University
2013--	Director of the Institute for Advanced Materials, LSU

Professional Activities

- Advisory Editorial Board, *Chemical Physics Letters*, 1991–1994
- Member of NRC Panel for “An Assessment of the National Need for Facilities Dedicated to the Production of Synchrotron Radiation,” National Academy of Sciences, 1976
- Member of the Eisenberger-Knotek Committee “Planning Study for Advanced National Synchrotron Radiation Facilities,” DOE, 1984
- Consulting Editor, *Chemical Physics*
- Editorial Board, *Physical Review B*, 1986–1989
- Editorial Advisory Board, *Langmuir*, 1989–1993
- Member, National Academy of Sciences “Materials Science and Engineering Study,” 1986
- Member, Evaluation Committee for Condensed Matter Physics in Sweden, 1986
- Member, Visiting Committee for Physics and Accelerator Departments and the Instrumentation Division of BNL for AUI (1980–1982)
- Member, User’s Advisory Committee for the National Synchrotron Radiation Light Source, BNL (1983–1987)
- Member, Solid State Sciences Committee of the National Academy of Sciences (1986–1989)
- Member, DOE Basic Energy Sciences, Materials Sciences and Engineering Division Review of LBNL and Sandia Livermore (October 1997)
- Chair, Complex Materials Study Group for the “Workshop on Scientific Directions at the Advanced Light Source” (1998)
- Member, Evaluation Panel for “Role of Structure of Surfaces and Interfaces” Program in the Condensed Matter Community of the Netherlands (1999)
- Chair, DOE Sponsored Workshop on “Soft X-Ray Science in the Next Millennium: The Future of Photon-In/Photon-Out Experiments,” Pikeville, Tennessee, March 15–18, 2000
- Chair, DOE-BESAC Subpanel for the Evaluation of the Intense Pulsed Neutron Source (IPNS) at Argonne National Laboratory and the Los Alamos Neutron Science Center (LANSCE) Manuel Lujan Jr. Neutron Scattering Center (2000–2001)
- Member, DOE-Basic Energy Sciences Advisory Committee (2001–2007)
- Member, DOE-Basic Energy Sciences Review of LBNL (October 2001)
- Selection Committee for the Ernest O. Lawrence Award in Physics (2002)

- Co-Editor (with C. B. Duke) of the Special Issue of *Surface Science*, Vol. **500**, entitled “Frontiers in Surface and Interface Science” (2002)
- Scientific Advisory Board for the International Center for Quantum Structure (ICQS) at the Institute of Physics in Beijing, China (2000-)
- Member, NSF Workshop “NNI Grand Challenge Workshop on Nanomaterials,” June 2003
- Executive Advisory Board for the University of Pennsylvania Materials Research Science and Engineering Center (LRSM) (2003-)
- Review of “Nanotechnology,” Proposed Program by Forschungszentrum Karlsruhe GmbH, for the Helmholtz Research Programme (April 2003)
- Selection Committee for the Ernest O. Lawrence Award in Materials Research (2004)
- Review Panel for the Physics Department at the University of New Hampshire (2005)
- DOE Review of the Advanced Photon Source (2007)
- International Review of the Institute of Physics, Beijing, China (2008)
- Member of AAAS organized review of the Univ. of Kentucky NSF-EPSCoR grant (2010--)
- Advisory Committee for Chinese High Magnetic Field Laboratory (2009--)
- Tulane University Physics and Engineering Physics Advisory Committee (2010--)
- Assessment Committee - Professor in experimental materials physics at Aarhus University (2010)
- Reviewer for Top Talents Project, Science and Technology Talents Exchange, Development and Service Center of The Ministry of Science and Technology of the People's Republic of China (2013).
- Chair of the Chinese Academy of Science Expert Assessment Committee of the Institute of Physics in Beijing, Dec. 2013.
- Member Defense Materials Manufacturing and Infrastructure standing committee (2013--)
-

Research Interests:

Investigations of the phenomena associated with the unique environment at a surface or interface driven by broken symmetry and reduced dimensionality. Specifically, the coupling of the electronic, magnetic, and structural properties (static and dynamic) at a surface.

This general theme is being applied by us to study correlated electron materials (CEMs) with functionalities like high-T_c superconductivity in cuprates, "colossal" magnetoresistance (CMR) in manganites, and superconductivity in the new Fe based superconductors. The exotic behavior of CEMs is intimately related to the coexistence of competing nearly degenerate states which couple simultaneously active degrees of freedom, charge, lattice, orbital, and spin states. Our approach is to investigate and hopefully learn how to tune the functionality in these materials by using the manifestations of broken symmetry, reduced dimensionality and spatial confinement.

Publications The color code is: Blue for *Physical Review Letters*; Green for *Science*; Red for *Nature*; Dark Turquoise for *PNAS*; Brown for *Physics Today*; and Violet for Major Reviews.

1. “Atomic Perfection and Field Emission from Tungsten (110) Surfaces,” T. H. Rhodin and E. W. Plummer, *Appl. Phys. Lett.* **11**, 194 (1967).
2. “Atomic Binding of Transition Metals on Clean Single-Crystal Tungsten Surfaces,” E. W. Plummer and T. H. Rhodin, *J. Chem. Phys.* **49**, 3479 (1968).
3. “Atomistic Considerations of Surface Binding on Metal,” E. W. Plummer, T. H. Rhodin, and P. W. Palmberg, *Proceedings 4th International Materials Symposium on Structure and Chemistry of Solid Surfaces*, Book, Wiley Publishers, New York, 1968.
